

● 2D reprojection RMSE (px)    - - true launch height    ■ true 3D error (m)

a clear (長球): the image pins the height down

b smash (殺球): it does not

c the same stroke scaled along the rays (top view)

— x0.85    — x1.00 (true depth)    — x1.15

6.2 m apart at the racket, 4.0 m where the stroke ends

d what the camera records

all three land on the same pixels: the largest disagreement is 1e-13 px, tracker noise is about 2 px
